Access up-to-date information instantly, so you can respond to changes in the market as they happen.

Our Products to Help You Grow

FIND THE PERFECT FIT FOR YOUR BUSINESS

Coming soon

AIBI SPARK
For brokers with up to 500 active accounts

- Same core reports & dashboards as Enterprise
- Fast onboarding
- Lower entry cost
- Metabase dashboards
- Seamless upgrade path → move to Enterprise anytime

Best for:
Growing brokers and prop firms who want enterprise-grade analytics at a lower entry point, with the flexibility to scale later.

AIBI JET
Built for scaling globally

- 15+ advanced reports → risk, sales, retention, KPIs, compliance
- Unlimited accounts & multi-server scaling
- Flexible dashboards → set up reports & KPIs the way your team needs
- White-label option
- Custom reporting add-ons for advanced analytics

Best for:
Mid-to-large brokers & prop firms needing deep insights, full control, and enterprise-level scalability.

CHALLENGES WE SOLVE

Workflow hurdles slow decision-making, increase errors,
and hinder growth. Here's how we solve these challenges.

Manual Work

Low Sales

Disconnected Systems

Loss of Clients

Lack of Automation in Client Management
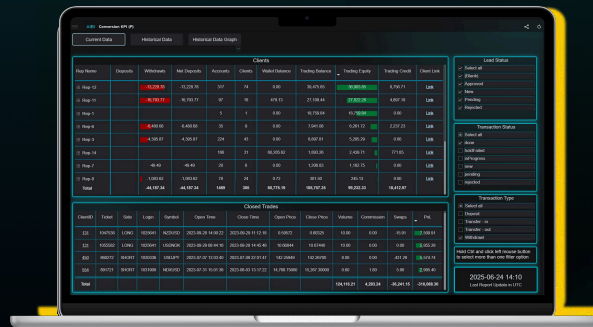

Limited Analytics

Wrong Decision-Making

Inefficient Risk Management

ANALYTICS SYSTEM

Over 15 Interactive, In-Depth Analytical Reports

Analytics System is an AI-powered solution that provides real-time, data-driven insights to help brokers and prop firms make informed decisions. It offers predictive analytics, risk management tools, and performance tracking, enabling businesses to optimize operations, reduce risks, and increase profitability.

Profitable Traders (AI Winners)

This AI-powered report identifies the most profitable traders based on their first 10 trades with 93%+ accuracy, helping brokers and prop firms manage risks and decide which trades belong in the A-book or the B-book model.

Conversion KPI

The Conversion KPI Reports, with different access levels for managers and the sales team, allow you to track employee performance, improve task execution efficiency, and optimize internal processes.

Margin call

The Margin Call Report provides real-time tracking of client balance changes, highlighting accounts that require immediate attention. It enables firms to quickly identify clients facing margin calls, allowing them to offer timely solutions that prevent client losses and help maximize profits.

Abuse Detection Reports

The Scalper Abuse Report automatically detects trades with unusually high profit or loss per second, while the Ambiguous Abuse Report flags unusual profit distributions. The Bonus Abuse Report detects fraudulent trading patterns linked to bonus exploitation.
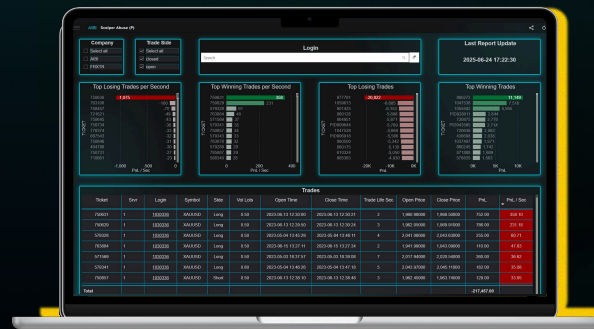

CLIENT DASHBOARD

The Client Dashboard provides brokers and prop firms with a powerful tool to manage client relationships. It offers integrated customer support for quick issue resolution, real-time tracking of client activity, and access to educational resources.

Clients can view their trading performance, receive personalized recommendations, and stay informed with real-time notifications. This all-in-one solution enhances client satisfaction, boosts retention, and streamlines your client management processes.
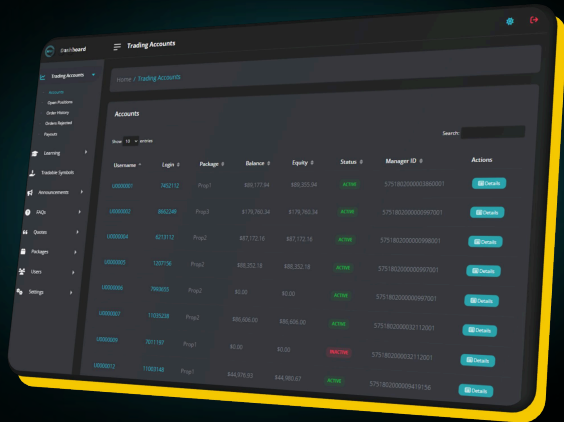

The Client Dashboard is fully white-labeled allowing you to use your logo and brand colors.

FROM PRE-LAUNCH TO **$3M+** MONTHLY REVENUE

Challenge:

A proprietary firm required help in launching their business.

Our Solutions:

- Implemented a reporting system with advanced analytics.
- Became their strategic partner, supporting internal operations and team workflows.

The Result:

- Reached $3M+ monthly revenue in just 2 years
- Helped draft operational documentation
- Returned to us to launch a second brand

We don't just provide software — **we embed ourselves in your growth**, from foundation to scale.

SUPPORTING RISK TEAMS AGAINST ABUSIVE TRADING

Challenge:

Multiple brokers with in-house risk teams needed help detecting abusive behavior that was quietly hurting their profits.

Our Solutions:

- Partnered directly with risk and dealing desks
- Analyzed complex abuse patterns using historical and live data
- Built custom abuse-detection tools based on client input
- Integrated tools into the platform for wider use

The Result:

- Faster, more confident decisions
- Prevented up to $300,000 in annual losses

When clients face new risks, we don't just observe — we build. Together.

WHEN TRUST MEANS SAYING "NO"

Challenge:

One of the largest brokers wanted real-time predictions of trade profitability.

Our Solutions:

- Highlighted our strength in AI-driven behavioral prediction to help the client anticipate trader actions.

- Shared tailored, automated operational insights, including real-time alerts and opportunity detection.

- Connected the client with a trusted partner to fulfill additional needs — choosing long-term value over short-term gains.

The Result:

- Maintained transparency and credibility

- Broker later engaged with us on risk automation solutions

- Saved 1000+ hours/year of internal analysis time by using our behavioral insights

We don't overpromise. We solve the right problems — even if it means saying no.

BOOSTING SALES WITH SMARTER LEAD FILTERING

Challenge:

A financial service firm with lead drop-off issues was wasting a lot of resources on unqualified leads

Our Solutions:

- Integrated an AI-driven lead filtering model
- Collaborated with a chatbot UX specialist for better engagement
- Built a combined system to prioritize only the most promising leads

The Result:

- Improved the lead-to-sales conversion rate by +38%
- Saved 60+ hours/month on manual qualification efforts

Smart automation doesn't replace human touch — it amplifies it where it matters most.

Key Benefits of Our Products

WHAT YOU GAIN WITH AIBI.GLOBAL

Seamless Integration
