

JET

AI-driven, enterprise data analytics
for brokers & prop firms

One platform. Full control. Real-time insights.

<https://aibi.global> ➤

Power BI and metabase dashboards

Unlimited scalability

AI-powered analytics

White-label ready

Dedicated BI team support

BUILT FOR DOMINANCE

Jet is an enterprise-grade, fully customizable, AI-powered data analytics platform for brokers and prop firms.

Jet gives firms **complete control** over their data and operations. With real-time analytics, advanced AI insights, and fully customizable infrastructure, teams can manage risk more effectively, understand trader behavior on a deeper level, and scale operations without limitations.

An analytics platform suitable for large and established brokers and prop firms that need deeper insights, full visibility, full control, and flexibility.

- 🔥 Make confident decisions with real-time insights
- 🔥 Customizable dashboards and custom built reports to fit your workflows
- 🔥 Integrate your full ecosystem seamlessly
- 🔥 Scalable infrastructure that grows without limitations
- 🔥 Reduced operational complexity by replacing multiple tools

SEE THE FULL PICTURE IN REAL TIME

JET brings together more than **15 advanced analytical reports** designed to give teams instant clarity across risk, sales, and performance. All reports are connected so your team gets real-time insights.

Need a report but it's not on the list?
No worries, we'll build it for you.

Account history

Live exposure

Profitable traders

Detection of abusive and toxic trading behavior

OPTIMIZE YOUR WORKFLOWS WITH OUR PROPRIETARY AI

JET combines multiple AI models to turn trading data into actionable insights in real time.

01

Trader Profitability Prediction

Predicts trader's long-term profitability in just 10 traders with 93% accuracy, supporting smarter A/B-book decisions.

02

Behavioral Shift Detection

Analyzes the last 50 trades to identify shifts in trading behavior, suggesting A/B-book adjustments if necessary.

03

Trading Activity Prediction

Forecasts when traders are most likely to become active, helping teams act at the right time

MONTHLY SUBSCRIPTION. UNLIMITED POTENTIAL.

JET is a subscription-based solution, allowing the platform to evolve with your business through continuous updates, dedicated support, and scalable infrastructure.

Starting from

\$9,999 / month

Pricing reflects the level of customization, scalability, and dedicated support.
